RUSSIANS STRIKE HARD AT LEOPOLD

'Advance of More Than Three Miles in Offensive Against Mitau .

FIGHT IN DEEP DRIFTS

Petrograd Denies German Troops Crossed Putna in Rumania

PETROCHAD, Jan II.

Despite strong counter-attacks by the Germana, the Russians continue to make headway in their offensive along the north-tracked of the eastern front.

The fighting is being carried out over stretches of frozen swamp land along the Dyina River and in some places in drifts of six to ten feet deep.

Prince Leopold's line has been deonly dented west of Riga, where the Russians have advanced more than three miles. Powerful blows are being struck by the Russians toward the German loss of Mitau and it is possible that thus is the monodiate objective of the Russian community.

Denial of the German claim that Teutonic forces are established across the Patrix River in Rumania was made in toda, a official statement. It was said that during a fog, in the region of tvenesch, in imperious counter-attack by Russian forces, with a brief bayonet combat, resulted in the chings being thrown back across the river with great losses.

The Rumanians were slightly proceed back counterest of Menosteria and Rachmul and also northeast of Kempuril, the statement declared.

Of the fighting in the Righ sector th statement said:

Around Lake Bublt yesterday the Muhbernly defended village of Kaine in was captured with numerous machingurs. Two enemy attacks were repulsed. Three enemy attacks east of the lake were beaten back with great here to the enemy.

LONDON, Jan. 11 Russia's thrust south of Riga is assura-ing the proportions of a great offensive movement, which is crumpling back German defenses and now seriously memores the enemy field base at Milan. The city is the object of attacks from three different di-rections, and unless the German forces develop greater defensive ability than the have manifested during the last few day the Russians will take the city very shortly

the Russians will take the city very shortly.

Since the attack developed in this sector Russian forces have advanced more than three miles, it was estimated today. Captures of "great numbers of variety of arms and equipment," officially reported from Petrograd, show the force of the drave and the precipitancy with which the enemy is being pushed back.

BOTH SIDES PREPARE BIG STROKES IN BALKANS

AMSTERDAM, Jan. 11.

Dispatches from Herlin today quoted leading German military experts an bredleting as big Allied drive in the Halkans and against Turkey. These critics hold the opinion that the Entente powers have come to regard Turkey as the weakest of the German allies and that a concentrated ef-tert is to be made to crush her.

LONDON, Jan. 11. says a dispatch today from Serbian head-

Considerable significance is attached to this news. The troops have evidently been transported from the Rumanian theatre of war, and they have been placed opposite that part of the front facing Thessaly. It has been reported for some time that the Teutonic allies would probably open a drive on the western end of the Macedonian line and that this might prove the mignal for Greece's entrunce into the war. It was for this reason that the Allies demanded the removal of the Greek from

inded the removal of the Greek troops Among the re-enforcements is a Bulgarian

at that has been used in Wallachia b

The German allies are preparing for an active campaign in the Balkans and the developments of the last few days indicate that this theatre of war is soon to see gigantic enterprises under way. According to reliable reports the Allied powers agreed at the Rome council to make a drive against the Austro-German-Turk armies in Macedonia in an effect to break through and cut off communication between the Central Empires and Turkey.

BERLIN REPORTS HEAVY FIGHTING IN WEST

The repulse of British attacks north and south of Ypres, in west Fluiders, was reported by the War Office today. It was summitted that a German french section near Beaumont has been lost to the Allies.

There has been violent fighting with artiplery and mines near Vinces, Wytschaete, on the Ancre and Somme Rivers, and on both wides of the Meuse (Verdun front) Two British captive balloons were shot

RUSSIAN DRIVE FAILS, GERMANS ARE TOLD

BERLIN, Jan. 11 -The Bueslan offensive started January 4 against German posi-tions south of Riga has failed with bloody looses for the enemy, the military critic of the official dewn agency asserted today. In only one place have the strong artacles not been sanguinarily requised in a curtain of

Dead hodies spread in thick masses on the ics offer a glundly picture of this une-less and horrible sacrible," the statement declared.

The critic asserted that the Russian local successes on an "insignificant frontier" has bent back the German front, but that the new German line was absolutely seerred against surprises

at the meeting.

Terms of the 'vistory loan' were outimed by Law. The loan will be at five
per cent, bested at 95 and for a term of
thirty years, with bonds optionally redoemable at the end of twelve years. BonniLaw explained also an optionary loan offer
at four per cent, which would be free of
tax. This would be pessed at par, he said.

WASHINGTON, Date 11. Couches in what officials hint "is clear, rong language," the Allied reply to Presi-nt Wilson's note to belligerents reached here today, with an unmistakable definition of what the Allies are lighting for.

In so far as officials would reveal, the message places the furder of responsibility upon Germany in the matter of givingsher passe ferms and thus leaves the discrepant for further peace negotiations

At least one official indicated that there was not a "gamplete throw-down of President Wilson's note." This strengthens the lew that the peace door is still ajar, though shelal discussion was so limited that a simplete interpretation of the flowernment of feetings toward the message could not be

PEACE TALK USELESS, LUDENDORFF SAYS

"All pears talk must now be postposed."
This declaration is attributed to General Ludendorff, first quarternmeter general of the German army and Chief of Staff to Field Marshall von Hindenburg. A staff officer who has just returned from German great headquarters quoted General Ludendorff as follows:

Germany's peace offer was honestly and shoesely made. That our enemies catled it a war ruse was an insult to tlerman honer. All peace talk must now be postpaned.

IVORY CHILD

"I found myself in a small place made of stone. There was a beautiful statue of a naked baby and a chair. The statue of the Ivory Child seemed to come to life. It took from its neck a string of red stones and set them upon mine. Then it pointed to the chair, and I sat down."

> THAT is the experience of Lady Ragnall when she held before her the bowl of incense offered by Harut and Marut.

Later she learned that Harut and Marut were priests of the White Kendah.

Their little experiment placed Lady Ragnall under their influence. Eventually they kidnapped her.

The manner in which she was rescued from the heart of darkest Africa is the theme of a story, "The Ivory Child," by that wonderful writer, Sir H. Rider Haggard. . It begins in Saturday's Evening Ledger.
